

# RAIL & MASS TRANSIT

WIRE, CABLE AND WIRE MANAGEMENT SOLUTIONS

## Who We Are

IEWC advances the way the world connects, stays powered, and drives forward through comprehensive supply chain and logistics solutions for wire, cable, and wire management products. For the Rail and Mass Transit markets those solutions include a team dedicated to ensuring the success of our customers moving the world. This enables us to provide knowledgeable support and stay at the forefront of industry needs, like a broad range of products that includes NFPA-130 adherence, IEC certifications, or LSZH qualities.

We build this offering by partnering with the leading manufacturers around the globe who make the reliable brands you need. Polyrad®, Exane®, and RADOX® are a few

of the names our customers are installing throughout North America, EMEA, and Asia-Pacific.

Our continually growing value-add capabilities are also attuned to the needs of the market. We print, cut to length, stripe, kit, and even customize cable via our ASCENT brand.

IEWC is an employee-owned company serving customers in 96 countries from our 24 stocking locations. We have been ensuring companies supplying the world's movers have their cable where and when they need it for more than 55 years. Contact your IEWC rep to discuss how we can help you in that mission.

*\*Only available in EMEA and APAC*
