SOLUTIONS

Electric & Hybrid Vehicles and Charging Infrastructure (EVCI) Solutions

IEWC has served automotive manufacturers, sub-assemblers, and their supply chains with a wide variety of wire and cable products for on- and off-road vehicles for more than 57 years. Our longtime partnerships with trusted automotive wire, cable, and wire management suppliers as well as newer, exclusive partnerships with the world's leading providers of high voltage cables for use in electric vehicles, enables IEWC to provide the most comprehensive array of supply and logistics solutions for OEMs and various tiers of manufacturers in the rapidly developing market for electric and hybrid vehicles. Let IEWC's extensive experience with the automotive and heavy machinery markets as well as our vast product assortment help you drive your electric and hybrid vehicle designs into production.

Product, Inventory & Engineering Services

While our primary goal is delivering the right product at the right time, our product and engineering support services are tailored to maximize every dollar our customers spend. Services include:

- Inventory management
- Design engineering services and prototyping support
- Value-added capabilities:
 - Cutting and respool
 - Striping and dying
 - Twisting
- Custom packaging
- Managed freight programs

Customers

- Manufacturers
- Contract manufacturers
- Assembly houses
- SAE university competition teams

PRODUCTS

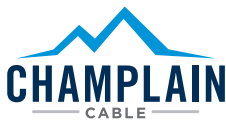

Exclusive Supplier Relationships

In addition to our commitment to serving the standard motor automotive market, IEWC has developed exclusive relationships with several of the world's leading producers of products that excel in meeting the demanding high-voltage performance specifications for the electric and hybrid vehicle market. As a value-add distributor with a global

footprint, IEWC ensures you can secure these industry-leading products in the quantity and timing you need, with rapid in-stock availability times, low minimum order quantities, and cut-to-length and respool service capabilities. Below is a sampling of the brands included in our EV program. If you don't see the brand you are searching for visit IEWC.com.
