IEWC Begins Operations in Monterrey, Mexico

New Berlin, WI, February 7, 2011 – IEWC has begun operation of its new 15,000 square foot stocking distribution facility located in Monterrey, Mexico. Monterrey is well known as Mexico's epicenter for manufacturing and industrial production. The opening of the Monterrey location will contribute heavily to the support of IEWC customers and suppliers within the North Mexico region.

IEWC's new state of the art facility was built with a focus on sustainable architecture and features LEED certification to ensure a low negative impact on the surrounding environment. This green initiative is meant to achieve energy savings, reduce the consumption of water and create a healthy work environment for all employees.

This location, in addition to IEWC's sales and distribution center in Aguascalientes, will enable a more efficient and streamlined approach to IEWC's delivery network within the Mexico market. For further information on the new Monterrey distribution facility, please contact Ricardo Garcia at (449) 922-1201 or via e-mail at rgarcia@iewc.com.
