CABLCON
AN IEWC COMPANY

OptiCLAW™ WMZ

Cablcon has expanded the reach and range of applications supported by its LightWISE™ VIC family of fiber optic interconnect solutions by introducing the OptiCLAW™ WMZ.

The OptiCLAW™ WMZ is designed for wall-mount and zero-u applications. Its patent-pending OptiCLAW™ fastener provides a fast, secure installation and accepts all LightWISE™ VIC panels.

Whether you are adding capacity to a rack that is already full, discretely running fiber connectivity to a new floor of a building, or seeking ways to bring higher fiber counts to colocation space, the OptiCLAW™ WMZ provides a reliable, space-conscious solution.
APPLICATIONS

- Data Center Meet-Me Rooms and Telecom Rooms
- Mobile Edge and Remote Broadband
- Passive Optical Networks (PONs), Fiber to the Office (FTTO)

FEATURES

- Robust mechanism for securing and accessing any VIC panel
- Mounting holes for wall-mount or zero-u installation
- Small footprint: 9 1/2" L x 7" W x 2 7/8" H
- Can be installed vertically (portrait) or horizontally (landscape)
- Smoked plexiglass removable front door
